**THE LUKE PROJECT 52 CLINIC OF FLINT  
NEWSLETTER #7**

In this issue:

NEW PARTNERSHIPS

MAY NEWS

**NEW PARTNERSHIPS**

We continue to build new partnerships to help us better serve the Moms that God sends to us. One of them is with **Early On of Genesee County's MOBILE EDUCATION LAB** that will start deploying to our location soon to offer the following:

MEL support staff and a network of community partners can help students and families get access to:

Basic Human Needs, Health, Vision, Dental, Mental Health, Notary, Employment, Parental Supports, Academic Supports (preschool through college), Youth Services, Literacy, Science, Technology, Engineering, and Mathematics (STEM), English as a Second or Other Language (ESOL), High School Completion Options, and Early Childhood Programs

Another new partnership is with **Hurley Nurse Family Partnership**. Becoming a mom for the first time is by far the hardest job you'll ever love. In acknowledgement of the challenges first-time moms face, Hurley Medical Center offers the Nurse Family Partnership. This free program matches you with a registered nurse for advice, guidance, support and a good laugh when you need it most. The program goes on until your baby reaches the age of 2 and is available to first-time moms who meet the following criteria:

- pregnant with their first child
- less than 29 weeks along at the time of registration
- income level falls within requirements
- reside in an eligible service area

This FREE program provides you all the resources you need to nurture the kind of healthy pregnancy that yields a healthy baby AND, best of all, will have a staff person ON-SITE at each Luke Project 52 Clinic of Flint to help you enroll!

Left– Dr. Chen saying hello to one of our new babies.

Right - Sharon Vogel doing what she does best.

**MAY NEWS**

In our mission statement, in addition to “saving Babies” and “changing lives”, we say we want to “help churches build community”. To this end we will be participating in a June event where we will take our mobile unit and some staff.

We are participating in a community outreach event sponsored by Catholic Charities at 812 Root in Flint on Tuesday June 14th from noon to 2pm. We will be at the FEED THE CITY EVENT with our mobile unit.
