STORIES FROM THE LUKE PROJECT

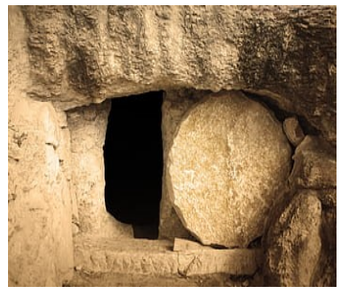
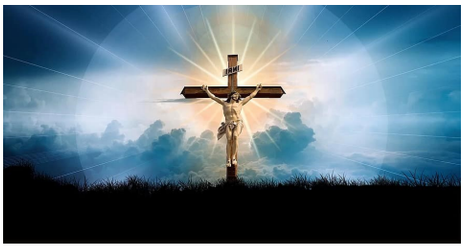
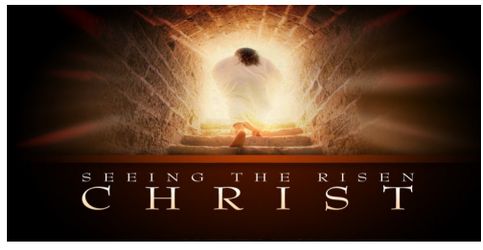
I received an email recently from one of our former patients at the Luke Project 52 Clinic of Flint. To all of you who have volunteered, donated, or prayed for us, this is God's answer!

"I was a patient last year, having come to the clinic only about 6 months after I had an abortion that nearly killed me. I was pregnant again and scared but your clinic helped save my life, and my babies life. It was within the walls of your clinic that I experienced the love and safety of Jesus for the first time. I was baptized while pregnant and I've been blessed to share my testimony with my women's Bible study group that I attend. My testimony shows what a powerful loving God we serve, and how only through Him we are able to turn our story of sin into a story of redemption. My bible study group consists of 12 women, all mothers, who have been greatly impacted by my testimony and understand what a critical role the Luke Project played in me surrendering my life to Jesus and saving my baby. We are so blessed to be able to offer ourselves up for service in the community and it would be an HONOR to give back to your clinic." May God bless each of you at the Luke Project. Thank you!"



A facebook post from one of our Moms at the Luke Project 52 Clinic of Flint. She said, "God is sooo good!!! I can absolutely say that all of you at the Luke project played a pivotal role in my surrendering my life to Jesus and becoming the mommy I thought I'd never be able to be. I think about you all so often. I'll never forget some of those conversations in the doula room with you ladies and feeling Jesus holding me so tight in there. Those were some of the safest moments I've ever experienced in my whole life. God bless you and everyone at the Luke project, you all helped save me and baby. 💙"





EASTER NEWS

- The clinic continues to grow and is serving an ever greater number of women in need. One of our doulas, Leslie Beemer, started a new post natal recovery house called Selah's Red Tent that we partner with. U of M Flint continues to send student nurses to experience the care model we practice and Michigan State has sent med students to gather our medical outcomes data.

- People ask Sherie (our clinical care coordinator) and me (Executive Director/ Pharmacist) why we do what we do? Here is why, *"so that I may gain Christ, and may be found in Him, not having a righteousness of my own derived from the Law, but that which is through faith in Christ, the righteousness which comes from God on the basis of faith, that I may know Him and the power of His resurrection."*
