U of M Flint School of Nursing Receives Grant to Partner with the Luke Project

We are excited to announce that U of M Flint School of Nursing has been approved for a grant that builds a symbiotic relationship with the Luke Project 52 Clinic of Flint. The grant funds an additional fetal monitor for the Clinic to expand our capacity to care for the vulnerable population we serve, but also funds sending 6 advanced practice nursing students (2 for each 4 month semester/6 in total for the year) to not only serve 1 day a week at clinic but also serve one day a week working with our Nursing Director to learn clinical care coordination in an urban clinic.

CLINIC CONTINUES TO RECEIVE SUPPORT FROM LOCAL CHURCHES

In addition to the $2550 receive this week from Holy Family Parish in Grand Blanc the Luke Project 52 Clinic of Flint receives support from various churches and church related organizations in our efforts to “save babies, change lives, and build community.” Just to name a few:

- K of C Councils 6694, 7418, 6742, 8489
- St. Francis Xavier Parish, St. Michael Parish, St. Augustine Parish
- Pilgrim Lutheran, Our Redeemer Lutheran, St. Peter Lutheran
- Risen Christ Lutheran, Zion Lutheran, Christ the King Lutheran
- Faith Lutheran. Shalom Lutheran
- And many others
